

Systems Analysis: Just like the human body, a church survives on healthy systems. Nelson Searcy identifies eight in his book Healthy Systems, Healthy Church. Rate on a scale of 1-5 with 5 being great

1. Weekend Service System (How we prepare & implement weekend worship gatherings)

0-----1-----2-----3-----4-----5

2. Evangelism System (How we share the gospel with our community & attract people to our church)

0-----1-----2-----3-----4-----5

3. Assimilation System (How we take people from their first visit to fully developing members of church)

0-----1-----2-----3-----4-----5

4. Sunday School or Small Groups System (How we fill and reproduce small groups in our church)

0-----1-----2-----3-----4-----5

5. Volunteer System (How we mobilize people for ministry)

0-----1-----2-----3-----4-----5

6. Stewardship System (How we develop strong givers)

0-----1-----2-----3-----4-----5

7. Leadership System (How we develop staff, lay leaders and high-powered volunteers)

0-----1-----2-----3-----4-----5

8. Strategic System (How we evaluate the above systems for constant improvement)

0-----1-----2-----3-----4-----5

Score: _____.

0-10 = Major system failure. Life support may be needed for awhile.

10-20 = Some systems failure may be evident or near. Further assessment needed immediately.

20-30 = Systems could be strengthened, but getting healthy is possible with intentionality.

30-40 = Systems are on go. Continue evaluating so that fruit can be harvested soon.
